"FREEDOM IS STILL IN THE BALANCE"

Said Rev. E. R. Evans in Memorial Day Address at Gloversville, N. Y.

Two Main Influences Possessing Power to Regulate Credit in This Country, Centered in Messrs. Mor-

One day the visitor was expressing her admiration of a certain "lit-clos", when madam pulled the sliding panels apart and revealed the figure of her husband sleepily rubbing his eyes and wanting to know what was the matter. She calmiy explained to the visitor wanted to see the inside of the bed and then explained to the visitor that her good man had been out fishing since dawn and was very tired. The visitor begged him to close the panels and go to sleep again, which he immediately did, but not before she noticed that he was fully dressed. It seems that the Breton peasant always disappears into the "lit-clos" fully dressed and always emerges therefrom in the same condition. While her husband slept madam enlarged on the advantages of a "lit-clos" fully dressed and always emerges therefrom in the same condition. While her husband slept madam enlarged on the advantages of a "lit-clos" in bringing up a family.

A Singular Meal.

One of the most singular meals ever eaten was that given to a select few by an antiquary named Goebel in Brussels some years ago. The bread was made from wheat grown before the children of Israel passed out of Egypt, and it was spread with butter made when Elizabeth ruled England. For fruit there were apples which ripened before the Christian era, and the wine was older than the white man's knowledge of the new world. The bread was made from wheat taken from a chamber in one of the pyramids, the butter (of which there were the children of the people and by the people. Origin of the Term "Gringo." To the average Mexican all Americans are "gringos." They are too po lite to call you a gringo to your face, but among themselves it is the term generally used in referring to Americans. It is a term of disrespect, just as "greaser" when applied to a Mexican is an opprobrious term. "Gringo" had its origin during our war with Mexico in 1847. Bobby Burns' song, with the chorus.

Green grow the rashes, O! Green grow the rashes, O! The sweetest hours that e'er I sper Are spent among the lasses, O! was very popular then, and our so diers in Mexico sang it on the march and on nearly every occasion. "Green grow" sounded like "gringo" to the Mexicans unacquainted with English, and they quickly learned to speak of the American soldiers as "gringos," and thenceforth this appellation has been attached to all Americans.-Out-
